ADAPTS ALL
1/4" HEX
POWER BIT TOOLS
TO YOUR
POWER DRILL

No more hassling with a chuck key!
Just push your bit into the **Quick Chuck™**
and it's locked in place. Change bits instantly!

Edition June 2014

Introduction

JPM TOOLS PTY LTD

JPM TOOLS Pty Ltd specialise in the distribution of quality products to the hardware and tools markets. Cutting tools are a key element of the business.

JPM TOOLS is the exclusive Australian distributor for the Snappy® brand of quick change chucks and accessories. Manufactured in the USA by Polytech Industries, the originators of the quick change concept, the Snappy brand has maintained its reputation for quality and service reliability.

New products introduced in this catalogue are clear evidence of continued innovation and product development.

SNAPPY QUICK CHUCKS™

This revolutionary system is designed to provide instant change over of standard ANSI 1/4" Hex drive power bits without the use of a chuck key. When used with the SNAPPY® range of 1/4" hex drive tools, the system allows the operator to use only one power tool for drilling, countersinking, counterboring, boring and driving, therefore saving time and effort.

The SNAPPY QUICK CHUCK™ is designed so that bits "snap" and lock in securely using a slip ring to allow instant installation and removal. Flat surfaces on the SNAPPY QUICK CHUCK™ shank prevent slipping within drill chucks and provide a positive no slip drive from drill motor to tool tip. SNAPPY QUICK CHUCKS™ can also be used in drill presses.

SNAPPY® DRILL ADAPTORS

Each drill adaptor has a standard ANSI 1/4" hex drive shank and is designed with a spring steel collet to accept normal HSS jobber drills in various sizes, including numbered, imperial and metric. Seventeen different adaptors cover all standard metric and imperial sizes from 1mm to 3/8". This system provides instant change over from one drill size to another.

When used with a SNAPPY QUICK CHUCK™ and a 1/4" hex drive screwdriver bit, the adaptor allows an operator to drill a hole then drive a screw with minimum delay in tool change over. The standard 1/4" hex drive will also fit directly into many cordless power tools.

SNAPPY® COUNTERBORES/COUNTERSINKS

Arguably the best counterbore/countersink available in Australia. The product is manufactured with an 82° countersink angle and a 3/8" or 1/2" counterbore with 2 super sharp cutting edges and deep non-clogging flutes. Standard HSS jobber drills are included and are easily adjusted for depth. Five different sizes cover the range from 5/64" to 3/16" in alloy steel and in tungsten carbide tipped. Instant change over benefits arise when used with SNAPPY QUICK CHUCKS™.

SNAPPY® DRILL GUIDES

Designed specifically for centering pilot holes in countersunk mounting plates such as hinges and the like, the SNAPPY® DRILL GUIDE has a hardened steel bushing at the point of a spring loaded sleeve surrounding a HSS drill. Again, instant change over benefits arise when used with SNAPPY QUICK CHUCKS™.

MERCHANDISING

All sets are supplied in clam shell packs. All individual items are supplied on hang sell cards

JPM TOOLS Pty Ltd reserve the right to change pricing and/or product specifications without notice.

Quick Chucks

Quick Change Chucks

Model No. 40011
Standard industrial chuck with knurled sleeve.

Model No. 40012
Mini-chuck, smaller for tight spaces. Tools are locked in drive channel with a uniquely formed tempered spring.

Model No. 41102
Screw chuck replaces the chuck on your power drill (3/8" - 24 thread).

Model No. 41103
SDS+ chuck allows for use with your SDS+ machine.

MODEL NO.	DESCRIPTION	BARCODE	RRP
40011	Snappy Quick Chuck	762234400116	28.50
40012	Snappy Mini Quick Chuck	762234400123	23.00
41102	Snappy Screw Quick Chuck	762234411020	43.00
41103	Snappy SDS+ Quick Chuck	762234411037	43.00

- ✓ Suits power bits or insert bits
- ✓ Extend the reach of your drill
- ✓ Once locked in, bits will not pull out of extension

Extensions with Quick Change Chuck

MODEL NO.	DESCRIPTION	BARCODE	RRP
40013	Snappy 3" Extension with Quick Chuck	762234400130	26.00
40016	Snappy 6" Extension with Quick Chuck	762234400161	29.00

Magnetic Bit Holders

Model No. 40003
Magnetic bit holder with sliding locator sleeve for insert bits

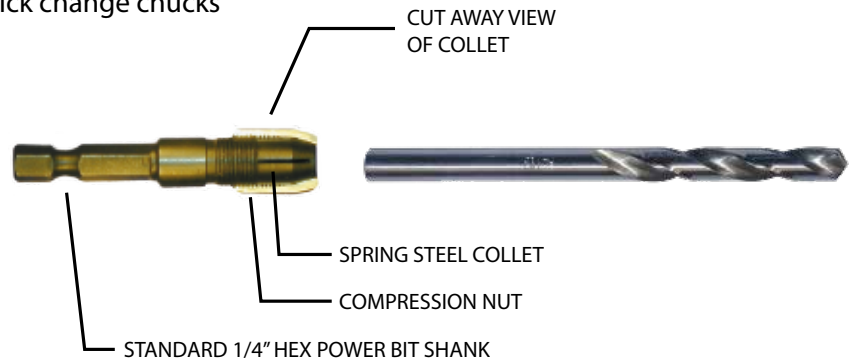

Model No. 41100
Magnetic bit holder with locking quick change chuck locks on power bits and extra tight grip on insert bits

MODEL NO.	DESCRIPTION	BARCODE	RRP
40003	Snappy 3" Magnetic Bit Holder with Sliding Locator Sleeve	762234400031	14.50
41100	Snappy Magnetic Bit Holder with Locking Quick Chuck	762234411006	31.50

Drill Adaptors

Drill Adaptors

- ✓ Convert standard drill bits to 1/4" hex power bits
- ✓ Standard 1/4" hex shank - fits all power bit quick change chucks
- ✓ Standard hex shank fits impact drivers
- ✓ Supplied without drill bits

Snappy®**

Countersinks

Gold Screw Countersinks

- ✓ **Combination countersink** - Drill pilot, countersink or counterbore in one step
- ✓ **Large 1/4" hardened set screw** - Easily adjust length of drill bit for correct depth of pilot hole.
1/4" set screw will securely hold drill bit to prevent slippage
- ✓ **82 degree countersink angle** - Set screw heads tight and flush to the surface.
Use optional depth stops to easily control depth of countersink
- ✓ **Counterbore** - Set screw head below surface. Use standard wood plugs or cut your own (matching) plugs to cover screw
- ✓ **Alloy steel** - Through-hardened to Rc 60 for long cutting life. Can be resharpened
- ✓ **1/4" standard hex shank** - Fits all quick change chucks or any standard drill chuck.
Milled flats on shaft prevent slippage in standard chucks
- ✓ Supplied with standard point HSS drill bits

48025	Snappy 25 Piece Tool Pouch	762234480255	200.00

Deluxe Countersink Set

You can now offer your customers all the drilling accessories for countersinking in one kit. The Snappy countersinks are through-hardened to Rc 60 for long life, oversized set screws hold a standard drill bit securely in place. The 3/8" stop collar will allow you to drill a countersink with the screw head flush to the surface. Remove the collar for counterboring. The Snappy plug cutter will cut a 3/8" tapered plug. The fit is so tight that no glue is needed to hold the plug. A chamfered cut on the starting end makes it easy to align grain and start the plug in the counterbore. Snappy quick change chuck makes it easy.

KIT CONTENTS

- 4x Industrial Quality Countersinks**
5/64", 3/32", 7/64" & 1/8"
- 1x Countersink Stop**
3/8"
- 1x Plug Cutter**
3/8"
- 2x Industrial Driver Bits**
1x #2 Phillips & 1x #2 Square
- 1x Snappy Quick Change Chuck**
- 1x Nylon Pouch**
